## New Digital Printing Capability for Ingeo Cups

See Box has applied the latest in Swiss digital printing technology to their Riiqi Cup brand of Ingeo™ compostable cold cups to provide a new level of vibrant graphics, and eliminate the need for minimum order quantities. This offers the ability for mass customization down to a lot size of one. These cups can be used to enhance sporting events, music concerts, festivals, fairs, as well as public and private food courts.

To take full advantage of its new digital printing technology, See Box is also launching a new “V Cup” series of Ingeo cups designed to maximize the print area available on the cup. The V-Cup will be available in 10, 12, 16, 20, and 24 ounce sizes.

- ✓ Stunning and vibrant graphics
- ✓ Customization with no minimum lot size
- ✓ High clarity and gloss of the Ingeo cup show off rich colors and print precision
- ✓ No printing plate set up fees
- ✓ Less wasted ink
- ✓ No design or color limitations
- ✓ Available in 10, 12, 16, 20, and 24 ounce sizes
